

THE 36-MONTHS PROJECT UNDER THE JEAN MONNET ERASMUS+ PROGRAMME AIMS TO:

promote european values concerning the use of safe and lawful ai that respects fundamental human rights

contribute to eu policies for the development and improvement of digital ai awareness and skills

the development of trust with reference to the use of ai by promoting research, teaching, and dissemination activities and events on these topics

BUTH
AI Building Trust in
Human Centric
Artificial Intelligence

IT IS SEGMENTED IN THE "TEACHING AND RESEARCH" WITH THE INTENT TO:

promote excellence in teaching and research in the field of european union studies worldwide

foster dialogue between the academic world and society

reach out to a wider public and spread knowledge about the eu to the wider society

improve critical thinking skills as fundamental tools of active european citizenship

highlight the critical issues related to security, privacy and transparency according to european policies

M1 THE EUROPEAN UNION'S HUMAN-CENTRED APPROACH TO A.I.

(PCTO for high school)

target audience : school students and high school teachers in order to train young people with respect to the following topics:

- ethics guidelines for trustworthy AI
- assessment list for trustworthy AI (ALTAI)
- Social and economic implication in the use of AI

M2 THE USE OF AI AND THE PRACTICAL CONNOTATIONS OF DATA PROTECTION, CYBERSECURITY AND ETHICAL PRINCIPLES

target audience: undergraduate students' course of study I20 bachelor's degree in innovative technologies for digital communication, other Link Campus University students and external parties. This module addresses:

- the knowledge gap on ethical implications, data protection and cybersecurity related to the use of AI
- the EU code of ethics and the issues related to the ethic in the use of AI
- the prohibited AI practices
